Past performance is no guarantee of future results. Investment returns and principal values fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost and current performance may be lower or higher than that quoted. You should read the prospectus carefully and consider investment objectives, risks and expenses carefully before investing. <sup>1</sup>The S&P500 is a broad index of the 500 largest companies in various market sectors. It is a market-capitalization weighted average emphasizing the largest companies.
